UNITED STATES PATENT OFFICE.

JOSEPH R. TORREY, OF WORCESTER, MASSACHUSETTS, ASSIGNOR TO THE
J. R. TORREY RAZOR COMPANY, OF SAME PLACE.

DESIGN FOR A RAZOR-HANDLE.

SPECIFICATION forming part of Design No. 21,634, dated June 21, 1892.

Application filed April 25, 1892. Serial No. 430,639. Term of patent 14 years.

To all whom it may concern:

Be it known that I, JOSEPH R. TORREY, a citizen of the United States, residing at Worcester, in the county of Worcester and State of Massachusetts, have invented and produced a new and original Design for Razor-Handles, of which the following is a specification, reference being had therein to the accompanying drawings, forming part thereof.

The leading feature of my design consists in a handle having its outer surfaces ornamented with the representation of an ear of maize or Indian corn, which is represented as being curved to give the handle the desired shape, and both sides of the handle are similarly ornamented.

In the drawings, Figure 1 represents my newly-designed handle in side or face view, and Fig. 2 is a longitudinal edge view of the same.

A denotes the two parts or sides of the han-

dle, provided on their outer surfaces with an ornamentation *a* in imitation of an ear of maize or Indian corn applied to the flattened outer surfaces of the handle, the representation of the rows of corn being, as herein shown, partly obscured by a representation of husks *b*, having a wavy and partly-curved appearance.

My newly-designed handle is intended more particularly as a razor-handle, and to this end is shown as being curved to give it a graceful appearance and convenient shape.

I claim—

The design for a razor-handle, substantially as herein shown and described.

In testimony whereof I affix my signature in presence of two witnesses.

JOSEPH R. TORREY.
